The New Project Costing Sheet

What's NEW

ATMIT ERP now introduces **a smarter way** to manage your project budgets.

From Formula to — Quotation Instantly!

With the new **Project Costing Sheet**, users can easily input custom formulas for each project and instantly generate a detailed cost breakdown.

Once finalized, the costing can be **seamlessly converted into a client quotation**, ensuring accuracy and speed from internal evaluation to client communication.

Revision Management: Track multiple revisions of costing and quotations to see exactly what changes the client requested.

Why This Matters

*It helps teams maintain a clear view of project costs and make faster, **data-driven pricing decisions** saving both time and effort.*

2 Expanding our **Integration Network**

What's NEW

We're proud to announce **new technology partnerships** that make our platform even more versatile.
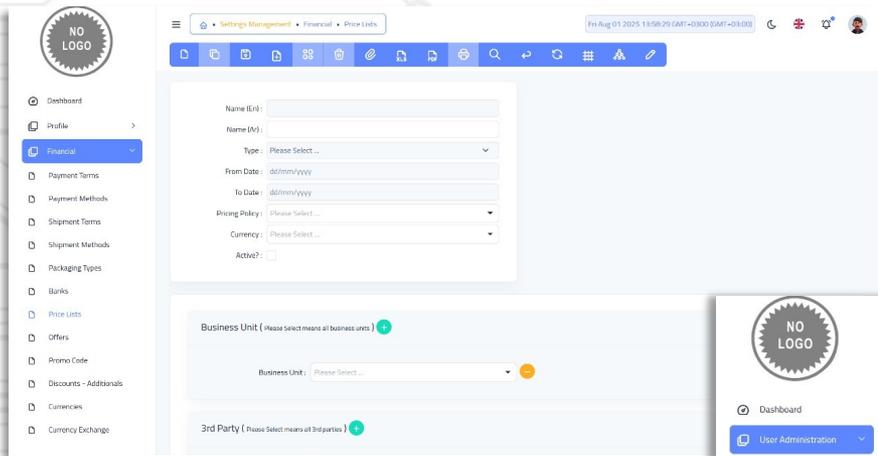

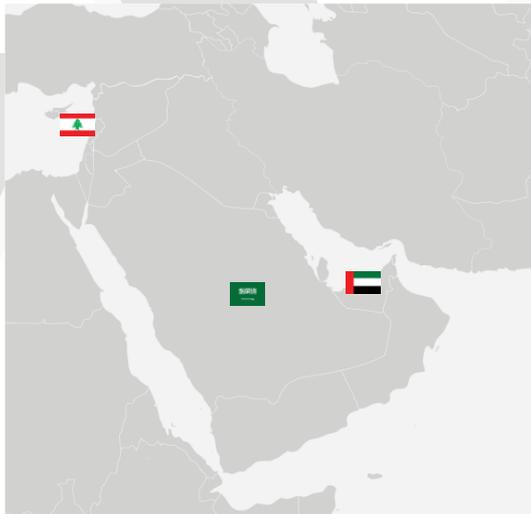

ATMIT ERP can now be seamlessly integrated with:

shopify   **Supy**   **pemo**

Why This Matters

*These integrations reinforce our commitment to providing a **flexible, connected, and efficient ERP experience.***
